Centre for Economic and Social Research, Poland

August 2017
### Policy Summary: Latvia
#### De-institutionalization

**Policy Theme:** De-institutionalization and development of alternative care services  
**Design and Implementation Level:** National design, locally implemented  
**Policy Objective:** National action plan to implement the DI process through:  
1. Efficient management of DI process, achievement and evaluation of planned results;  
2. Single approach in all planning regions;  
3. Use of European Common Guidelines and Manual on the Use of EU Funds to implement the transition from institutional to community-based care.  
**Start Date – End Date:** 2015 – 2020 (some activities in 2023) interim report in 2018

### Aims
- with ESF support, made an assessment of individual needs for 2,100 adult persons with mental impairments  
- closed three long-term social care and social rehabilitation institution / affiliates  
- five reorganization plans elaborated for SSCS affiliates that will be closed  
- 850 persons with mental impairments to receive ESF supported social care services at the place of residence in December 2018 and 2,100 persons in December 2023  
- 700 persons with mental impairments to have started independent living outside long-term social care in social rehabilitation institutions in 2023  
- Proportion of persons with mental impairments who live outside institutions and receive community-based services to increase from 20% in 2012 to 45% in 2023

### Implementation
The necessary regulatory framework was developed during 2015. In November contracts for implementation of the projects were concluded in all planning regions and cooperation agreements are now concluded with the municipalities.  
Zemgale planning region continues to work on the project and procurement for development of de-institutionalization plan in the region was announced on 20 September 2016, with an estimated contract price of €123,967. The other planning regions are planning similar procurements, hence the MoW believes that more active implementation of the projects will take place in 2017 and 2018.

### Target Group
Adult persons with mental disability in care institutions

### Eligibility Criteria
n/a
**POLICY SUMMARY: Latvia**

**De-institutionalization**

**Resources**
The programme is funded mainly from EU funds, budgeted as follows:

- For DI process management at regional level – €51,000
- elaboration of communication strategy and action plan – €30,000
- imlementation of communication strategy and action plan – €900,000

<tbody>
<tr>
<td><strong>Is this an emergent practice? Degree of innovation</strong></td>
<td>Planned measures should not be considered as innovative, but it cannot be excluded that, by developing services in municipalities, such services could be developed.</td>
</tr>
<tr>
<td><strong>Sustainability</strong></td>
<td>Local governments will be involved in the implementation of the measures, therefore it is considered that the sustainability of the plan will be provided.</td>
